Mr Brady,

For the past several years many of us in the greater Springfield area have listened to your insults made against the Catholic Church and its leaders. We have seen your written materials, heard your speeches, and visited your website. We have been appalled. We have also looked into your own background.

We have learned much by our investigations. We know that you have had more than one wife and children from more than one woman. We have uncovered that you have lived a life of debauchery and shame. We know that for years you abandoned the Catholic faith. We know that some of your children have rebelled against you, and are ashamed of you. We have learned that you are abusive to your family members and community. We have uncovered that you regularly have pleasant contact with homosexual men in Springfield and elsewhere. We have come to see that you benefit financially, in significant amounts of money, by your work as President of the RCF. We have also learned that you do not speak for the RCF, but as an individual, in what you project.

A number of people have noted your remarkable homosexual insults, aimed particularly at members of the hierarchy. It seems you believe most cardinals, bishops, and priests are gay or "gay friendly," and you want to discredit their mission. You have leveled insults against Cardinal Cacciavillan, Cardinal George, Archbishop Gregory, Bishop Lucas, Bishop Kikanas, Bishop Imesch, Monsignor Steffen, Father Schwartz, Monsignor Mank, Father Schmidt, Monsignor Renken, Father Kraft, Monsignor Lantz, Archbishop Dolan, Father Chiola, Cardinal Keehler, Father Harman, Bishop Skylsted, Father Harmon, Archbishop Montalvo, Father Serra, Father Westhoff, Father Titus, Monsignor Kemme, Monsignor Vann, Father Hoefler, Monsignor Holinga, and countless more in our area--not to mention elsewhere. You seem to delight in all this.

Remarkable is the way you omit reference to "some" priests.

Our investigation has brought many to conclude that you yourself are homosexual, as are members of your family. You are uncomfortable with your own sexuality and project your problems on those who lead the Church faithfully. "You protesteth too much!"

We want you to know that our investigation of you, your background, your sources of income, your family and much, much more is only beginning. Every day we learn more and more incredible facts about you. You will hear so much more from us, and so will countless others.

It's not important that you know who we are. You may learn that in time. But, be assured, we know who you are--and are learning more about you by the minute. Watch for us! We are watching you!
